

Module designation	<i>Integral Calculus</i>
Semester(s) in which the module is taught	2
Person responsible for the module	<i>Dra. Endang Listyani, M.S</i>
Language	<i>Bahasa Indonesia</i>
Relation to curriculum	<i>Compulsory course</i>
Teaching methods	<i>150 minutes lectures and 180 minutes structured activities per week.</i>
Workload (incl. contact hours, self-study hours)	<i>Total workload is 136 hours per semester which consists of 150 minutes lectures, 180 minutes structured activities, and 180 minutes self-study per week for 16 weeks.</i>
Credit points	3
Required and recommended prerequisites for joining the module	<i>Differential Calculus (MAT6302)</i>
Module objectives/intended learning outcomes	<p><i>After taking this course the students have ability to:</i></p> <p><i>CO1. Showing respect for the other's opinion</i></p> <p><i>CO2. Develop knowledge of Integral Calculus in a systematic, critical, creative, and innovative way</i></p> <p><i>CO3. Communicate ideas in solving problems related to Integral in writing or verbally</i></p> <p><i>CO4. understand the Integral concept for the basis of self-development in work and further study</i></p> <p><i>CO5. Exploring, generalizing and proving theorems related to Integral using logical reasoning</i></p>
Content	<i>The course contains discussion on Indefinite integral, definite integral, fundamental theorem of integral, applications of the integral, transcendent function, integration techniques, indeterminate forms, and improper integrals.</i>
Examination forms	<i>CO1: Attitude assessment is carried out at each meeting by observation and / or self-assessment techniques using the assumption that basically every student has a good attitude. The student is given a value of very good or not good attitude if they show it significantly compared to other students in general</i>

Study and examination requirements	<p><i>The result of attitude assessment is not a component of the final grades, but as one of the requirements to pass the course. Students will pass from this course if at least have a good attitude.</i></p> <p><i>The final mark will be weight as follow:</i></p> <table><tr><th>No</th><th>CO</th><th>Assessment Object</th><th>Assessment Technique</th><th>Weight</th></tr><tr><td>1</td><td>CO 2</td><td>presentation</td><td>Observation</td><td>10%</td></tr><tr><td></td><td>CO 3,CO 4, CO 5,</td><td>a. Individual assessment b. Group assessment c. Quiz d. Mid exam e..Final exam</td><td>Written test</td><td>10% 10% 20% 25% 25%</td></tr><tr><td colspan="4">Total</td><td>100%</td></tr></table>	No	CO	Assessment Object	Assessment Technique	Weight	1	CO 2	presentation	Observation	10%		CO 3,CO 4, CO 5,	a. Individual assessment b. Group assessment c. Quiz d. Mid exam e..Final exam	Written test	10% 10% 20% 25% 25%	Total				100%
No	CO	Assessment Object	Assessment Technique	Weight																	
1	CO 2	presentation	Observation	10%																	
	CO 3,CO 4, CO 5,	a. Individual assessment b. Group assessment c. Quiz d. Mid exam e..Final exam	Written test	10% 10% 20% 25% 25%																	
Total				100%
